

## Team Leader's Sign Up Sheet

*Team leaders must initiate every event. They are there at the kick-off and then must run to each event and tell each assigned member when to go (when the other event has been accomplished...be honest). They must rally the **whole team** and get them to be at each event (this is required or the entire team will be penalized time). Again, **all** team members must follow to each event (except the ones who are ready to go at the following stations). Try to get every person on the team to do at least one event. Only if necessary can a student do another event (whole team events do not count). Good luck!!*
